opening day of Stafford fair. Early in the morning the crowds began to flow in throngs through the gates in teams, automobiles and on foot, and the stream did not stop till mid-afternoon. The midway held throngs that surged about the booths and stands. Apparently everyone found enjoyment the entire day.

This year the midway is twice as big as ever before. Lack of more room is the only thing that has limited it, and the Stafford fair grounds are certainly large. Superintendent O'Halloran was forced to turn away close to 100 applicants for concessions during Monday and Tuesday.

One thousand concession tickets have been given to people having booths on the grounds.

rounds.
That part of the midway near the two gates is filled by the Ferris wheel, merry-go-round, motordrome and a large num-ber of side shows. The rest of the midway, which stretches all the way to the stables, is taken up by eating booths, drink dispensories, games of chance which are not unlawful, blanket stands, basket booths, and condy booths.

## A safety razor and stropping device combined in one

NO shaving edge, whether it is a barber's straight razor or a safety razor blade, can keep its original keenness for more than one or two shaves without stropping.

Stropping-that's the real secret of shaving comfort.

You can be sure of a fine, keen edge for every shave if you use the AutoStrop Razor—the razor that sharpens its own blades.

Built right into the frame of the AutoStrop Razor is a remarkable self-stropping device-simple and efficient-which renews the fine, keen edge of the AutoStrop blade day after day.

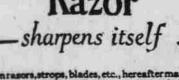

You don't have to take the razor apart nor remove the blade. Just slip the strop through the razor head, and move the razor back and forth along the strop.

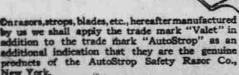

In 10 seconds you have a new, sharp shaving edge!

500 cool, comfortable shaves are guaranteed from every dozen blades!

### TO NORWICH ART ASSCN

The October meeting of the Norwich Art Association was held Monday evening in Slater Hall annex, with the new president, Mrs. Frank Hempstead, pre-siding. There was a large attendance and one new name, Miss Elizabeth M. Culver was added to the growing membership of the association.

Much appreciation was expressed of a rare collection of 250 beautiful pho-tographs which have recently been pretographs which have recently been pre-sented to the association by Mies Au-gusta McCurdy. These photographs re-resent Italian, French. Spanish, Ger-man and Flemish art in the various

galleries and churches in Europe.

The greater part of the evening was spent in listening to a delightful and instructive talk regarding these photographs by Miss Falth Leavens. Of special interest was her description of the magnificent tomb of Maximilian I., which she described in detail, after which the audience studied the pictures, which weer farther explained by Miss Leavens, Miss Webb, Miss McCurdy and Miss Gernon. It was voted that these photographs be mounted and classified, and that meetings aside from the regular monthly meetings be held for the purpose of studying both these and the estlection of several hundred already can galleries and churches in Europe. lection of several hundred already own ed by the Slater Museum,
